

# Applied English Linguistics

BA

<b>Hours</b>	48-60 Credit Hours
<b>MAP</b>	Major Academic Plan

## Program Requirements

It is strongly recommended that Ling 198, a 2-credit-hour course, be taken early in a student's major. This course is recommended to help Applied English Linguistics majors focus on specific educational and occupational goals and to identify the career options or educational opportunities available to them. The course will introduce them to the resources needed for accessing information about graduate schools, internships, careers, and career development.

### **REQUIREMENT 1** Complete 2 courses

ELING 223 - Introduction to the English Language3.0

LING 198 - Career Explorations in Linguistics2.0

### **REQUIREMENT 2** Complete 6 courses

*Core courses:*

ELING 273 - Introduction to English Linguistic Research Methods3.0

ELING 324 - History of the English Language3.0

ELING 325 - The Grammar of English3.0

ELING 326 - English Semantics and Pragmatics3.0

ELING 327 - English Phonetics and Phonology3.0

ELING 495R - The Senior Course3.0

*You may take this course up to 1 time.*

### **REQUIREMENT 3**

Complete university course work (or the equivalent) to a 200-level or higher in any single foreign language, including American Sign Language. (This requirement varies for Spanish. See the Humanities College Advisement Center.) The language for this requirement may be the same language used to satisfy the GE Foreign Language option, but note that the GE Foreign Language option may require more coursework than this requirement from the Applied English Linguistics major. For non-native speakers of English, the university TOEFL requirement satisfies this requirement for the Applied English Linguistics major. A language relevant to the historical development of English is strongly recommended, namely Latin, French, German, or Classical Greek.

### **REQUIREMENT 4** Collecting & Processing: Complete two courses (6 hours)

*Courses NOT chosen to complete requirement 4 may be used to complete requirement 5.*

## Program Outcomes:

### Linguistic Structures

Identify linguistic structures of present-day and historical varieties of the English language (sounds, sound patterns, morphology, grammar, and meaning) and the linguistic/social factors that influence structural/semantic change and variation

### Linguistic Tools

Use appropriate methods and linguistic tools to collect, process, describe, and explain language data.

### Empirical and Descriptive Methods

Apply empirical and descriptive methods to solve problems or answer questions in professional settings and disciplines outside linguistics.
